

QUICK EXPLANATION FOR WHY THERE'S A SEPERATE 9 BY 6 SECTION:

Well you see, I thought that you can have different sizes for pages in a pdf for some reason? Honestly, if there is a way to do that I'm unaware of it and it'd probably take too much work at this point so this is the easier solution to that issue. The zine allowed two sizes for pieces: 9 by 6 inches and 6 by 9 inches. 9 by 6 inches is what these pages' sizes are, which is wide. 6 by 9 inches would be taller, which is what the other pieces of the zine are in all of the other sections. My deepest apologizes for having to make a completely different and unplanned section for the Nepzine to include. Hope you can understand! Anyway, look at this cool art! <3

(P.S. The font I use called FONTSTUCK does not allow underscores so I had to improvise with parethessis. Sorry!)
